## Visit and exchange of views by a delegation from the Republic of Uzbekistan

By Mr. Takahiro Yamada, Head of Administration Division, IISEE

On Wednesday, October 26, we received a delegation from the Republic of Uzbekistan mediated by the International Affairs Section of the Planning Department, BRI.

The delegation consisted of four members from the Academy of Sciences of the Republic of Uzbekistan, three government officials of the Republic of Uzbekistan, two from Ferghana Polytechnical Institute, two from Turin Polytechnic University in Tashkent, two from the Embassy of the Republic of Uzbekistan in Japan, and an interpreter totaling 14 persons.

The visit began with a greeting from Mr. Sawachi, President of the Building Research Institute. He followed by greetings of gratitude by Professor Mirzaev, Vice President of the Academy of Science of Uzbekistan, who gave an overview of the research of the Institute, an inspection of the full-scale structure experiment building and the strength test

## Call for Papers

IISEE Bulletin is now accepting submissions of papers for the seismology, earthquake engineering, and tsunami. Developing countries are targeted, but are not limited.

Your original papers will be reviewed by the editorial members and some experts.

NO submission fee is needed.

Try to challenge!!

## Contact Us

The IISEE Newsletter is intended to act as a go-between for IISEE and ex-participants.

We encourage you to contribute a report and an article to this newsletter. Please let us know your current activities in your countries.

We also welcome your co-workers and friends to register our mailing list.

## Symposium jointly hosted by National Graduate Institute for Policy Studies (GRIPS) and Building Research Institute (BRI) - January 16, 2023

By Dr. Bunichiro Shibasaki, Director of IISEE

A symposium jointly hosted by the National Graduate Institute for Policy Studies and the Building Research Institute will be held on Monday, January 16, 2023.

The outline of the symposium is scheduled as follows. Details will be announced on the website later.

Volcanic eruptions have caused significant damage worldwide, such as the Hunga Tonga–Hunga Ha'apai eruption and tsunami (HT-HH) in January 2022. Japan is one of the most volcanic countries in the world, where volcanoes erupt frequently, and there are concerns about the impact of the eruption of Mt. Fuji on the Tokyo metropolitan area. In this symposium, we will exchange information on domestic and international efforts and technological trends and consider issues that need to be addressed in the future.

Date and time: Monday, January 16, 2023, 1:30 pm – 5:00 pm

Venue: Online (ZOOM webinar) free participation fee

Language: Japanese/English (simultaneous translation)

Hosted by: National Graduate Institute for Policy Studies, Building Research Institute
